FEES

CURRENT FEES ON ENQUIRY

50 minute sessions

Longer sessions are charged on a pro rata basis.

Fees are payable at the end of each session unless alternative arrangements have been made. Eftpos and Credit Card facilities are available.

If your GP has provided you with a Mental Health Care Plan, these fees attract Medicare rebates of approximately \$140.00 per session for 10 sessions per calendar year. After the 6th session you need to be reviewed by your GP in order for the next 4 sessions to be authorized.

Private Health Funds vary in their benefits and may be used instead of Medicare, or after you have exhausted your Medicare benefits, but not simultaneously.

CANCELLATION POLICY

You are liable for a cancellation fee of \$100 if your appointment is cancelled with less than 24 hours' notice, except in the event of illness or accident. This charge may be waived if a substitute appointment is arranged within the same week. This possibility depends on the availability of time in my schedule. You are also liable for the cancellation fee if you do not keep an appointment without cancelling it.

NB: Medicare does not pay for sessions not attended.
